

Quickpeek colour proofing kit

The QuickPeek produces a colour proof from a small volume of ink.

It replicates final print quality enabling you to check colour, drying time, rub-proofness and light-fastness.

The kit consists of :

- a proofing plate
- a measuring bar
- a metering plunger and spatula

Features

- Eliminate press downtime for ink colour correction
- Proofs to test drying time, rub-proofness and lightfastness
- Quickly evaluate inks to verify conformance to specifications
- Calculate ink mileage to forecast consumption
- Accurate proof of ink on coloured stocks or when overprinting another ink
