

Bauer Refiner

Principle

- MD-3000
 - Capacity: 50 l
 - Consistency: 2-8%

Standards

- MD-3000
 - No standards
 - Pilot refining close to process refining

Technical specifications

- MD-3000
 - Capacity 50 l
 - Consistency 2-8%Very close to industrial refining=flat discs
Today conical discs

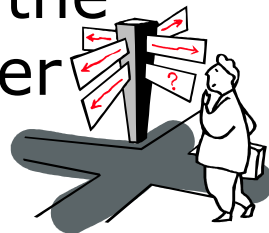

Technical specifications

- MD-3000
 - Closed beating loop= homogenously beating
 - Adjustment discs
 - 0-9 mm
 - During operation
 - 3 types of discs
 - Hard bronze

Technical specifications

- MD-3000
 - 3 types of discs
 - Hard bronze
 - Short fibers
 - Long fibers
 - Both
 - Easy access to the refining chamber

Technical specifications

- MD-3000
 - Closed beating loop= homogenously beating
 - Cooling system – tap water
 - Stable – fixation on ground
