

## *Principle*

- VB-21
  - Capacity: 360 grams
  - Consistency: 1,56%(standard)

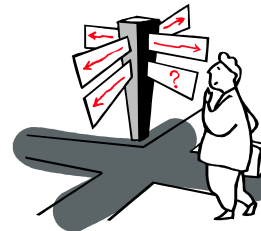

## Standards

- VB-21
  - ISO 5264/1
  - TAPPI-T 200

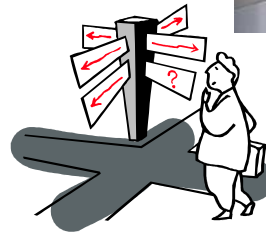

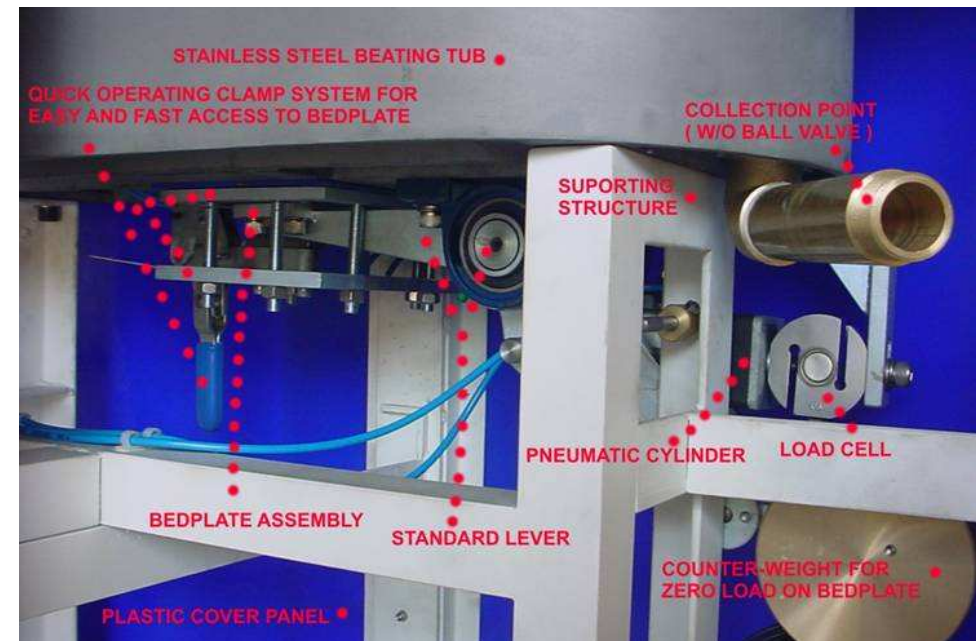

## *Technical specifications*

- VB-21
  - Capacity: 360 grams 
  - Tub: 23 L
  - Contact force between roll and bedplate adjustable

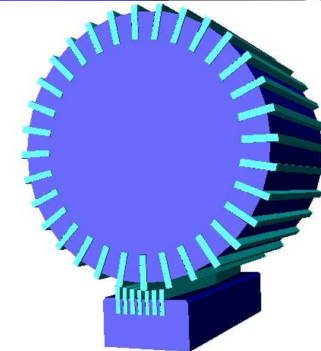

## Technical specifications

- VB-21
  - All beater elements are stainless steel
  - Pressure control between beating roll and bedplate
    - Pneumatic
    - Load cell

## Technical specifications

- VB-21
  - Cutting speed 5m/sec 
  - Acces for easily:
    - Inspection
    - Sharpening
    - Cleaning of bedplate

## Technical specifications

### VB-21

- Easy collection of beated pulp
- Control panel indicates:
  - Countdown timer
  - Indication of applied force (zero, standard and adjustable)
  - Rotation speed
  - Pulp temp. indication (damage overheat)
